

FAIZAN ALI

ANGULAR DEVELOPER

ABOUT

As an experienced Angular developer with four years of hands-on experience, I possess a strong understanding of the framework's architecture and a proven track record of building robust, scalable web applications. I am highly proficient in TypeScript, JavaScript, HTML, and CSS. Throughout my career, I have worked on a variety of projects, from small web applications to large-scale enterprise solutions. My expertise extends to optimizing application performance, implementing state management solutions, and ensuring responsive design across platforms. I am committed to delivering high-quality, user-centric applications that meet business objectives and enhance user experiences.

SKILLS

- HTML5
- CSS3
- Tailwind
- Less & Sass
- Bootstrap5
- Javascript
- Typescript
- Angular2+
- RxJs & NgRx
- NPM
- Git & GitHub and Tfs
- Postman & Swagger
- Agile methodology

EXPERIENCE

OHS Technologies

Angular Developer | September 2023 to Continue

- Spearhead the design, development, and implementation of robust and scalable Angular applications tailored to meet OHS Tech's business objectives
- Apply best practices in Angular development to optimize application performance and enhance user experience, focusing on efficient front-end architecture
- Engineered secure two-step authentication mechanisms and integrated real-time video calling features, ensuring compliance with healthcare regulations and enhancing patient-provider interactions

Simplelogix (US-based)

Angular Developer | June 2022 – August 2023

- Proficient in Angular framework, specializing in building dynamic and responsive web applications
- Successfully led teams in the development and delivery of Angular-based projects, ensuring adherence to timelines and quality standards
- Led a cross-functional team through the complete lifecycle of a complex Angular application, from initial concept and architecture to deployment and post-launch optimization, ensuring seamless integration with backend services and achieving improvement in user engagement.

CodingHub

Angular Developer | March 2021-May 2022

- Developed and optimized scalable, maintainable web applications using Angular, focusing on UI/UX design, performance, and advanced features like RxJS and state management.
- Consistently expanded Angular expertise, applying best practices and advanced concepts to contribute to high-quality, efficient, and innovative web applications
- Led full-stack Angular projects, from initial requirements gathering and architecture design to deployment and post-launch monitoring. Employed Agile methodologies to ensure timely delivery and high-quality standards.

PROJECTS

Romtix.com(EHR) (OHS Technologies)

<https://romtix.com/auth/login>

Developed a scalable EHR system using Angular with features like patient data management, appointment scheduling, secure messaging, and video consultations. Led end-to-end development, implementing RBAC, 2FA, real-time notifications (Socket.io), and modular architecture for high performance and security.

WayPoint (Simplelogix)

hsp.waypoint-global.com

Built a full-stack service management app for the shipping industry using Angular and .NET Core, streamlining crew logistics, maintenance, entertainment, and service coordination. Integrated push notifications, Microsoft authentication, real-time communication, and optimized performance with lazy loading, AOT, and JWT.

Codinghubpro.com (CodingHub)

<http://codinghubpro.com>

I developed the official website for **CodingHubPro**, showcasing their portfolio, enhancing client communication, and boosting online presence with a high-performance, responsive design. The project involved frontend development, optimization, and integration of dynamic features.

Note : I have led these projects, contributing significantly to their success. Additionally, I've completed several freelance projects on Upwork and Fiverr, showcasing my skills, which can be discussed upon request. I am always open to new opportunities and challenges to further demonstrate my expertise.
