### EXPERIENCE

#### Simplelogix (US-based)

Angular Developer | June2023 to continue

- Proficient in Angular framework, specializing in building dynamic and responsive web applications
- Successfully led teams in the development and delivery of Angular-based projects, ensuring adherence to timelines and quality standards

#### OHS Technologies

Angular Developer | Jan2023-June2023

- Spearhead the design, development, and implementation of robust and scalable Angular applications tailored to meet OSH Tech's business objectives.
- Apply best practices in Angular development to optimize application performance and enhance user experience, focusing on efficient front-end architecture.

#### AngularHub

Angular Developer | June2022-Dec2022

- Led the conceptualization, creation, and deployment of resilient and scalable Angular applications, meticulously crafted to achieve AngularHub specific business goals.
- Collaborate closely with cross-functional teams to translate business requirements into technical solutions, ensuring alignment with project timelines and quality

#### CodingHub

Angular Developer | March2021-May2022

- Developed and optimized scalable, maintainable web applications using Angular, focusing on UI/UX design, performance, and advanced features like RxJS and state management.
- Consistently expanded Angular expertise, applying best practices and advanced concepts to contribute to high-quality, efficient, and innovative web applications.

### PROJECTS

#### WayPoint (Simplelogix)

[hsp.waypoint-global.com](http://hsp.waypoint-global.com)

Led end-to-end development of a shipping application for Waypoint, a USA-based sea-view logistics company. Implemented cutting-edge features including Socket.io notifications, custom calendar, and status-based routing. Optimized performance with lazy loading, seamlessly integrated QuickBase and .NET APIs. Employed Agile methodologies, collaborating with cross-functional teams for a cohesive development workflow

#### Codinghubpro.com (CodingHub)

<http://codinghubpro.com>

With a proven track record of enabling numerous companies to transition towards automation, we specialize in delivering comprehensive full-stack solutions

#### Romtix.com(EHR) (OHS Technologies)

<https://romtix.com/auth/login>

The application enables labs to efficiently manage patient and customer records, keeping them up-to-date with their test status and history in hospital(California). Moreover, users can remotely schedule appointments with doctors.

#### Complaint Management System (CCI) (AngularHub)

<https://www.cci.com.tr/en/>

Our complaint management system is designed to automate the entire complaint Handling process, providing efficient and streamlined operation

**Note :** In these projects, I have played a leading role, contributing over 85% of the work. Additionally, I have worked on numerous freelance projects, which are not detailed here but further demonstrate my skills and expertise.
